

GIFTS THAT KEEP ON GIVING

This holiday season, we hope you will consider a donation to Flagler Health Care Foundation as you approach your year-end charitable giving. Our donors are vital to the success of our mission. All contributions received before December 31, 2021, will qualify as tax-deductible donations for 2021. Here are just a few of the ways that gifts to Flagler Health Care Foundation made a positive impact in our community throughout the last year:

- We've invested in technology to bring advanced structural heart procedures to our local community, helping patients get back to living their best life.
- We've deployed our Plus Bus Mobile Health Clinic, bringing medical care, resources and vaccines to our community's most vulnerable.
- We've helped people meet unexpected needs that occurred during the COVID-19 pandemic, like housing, rental assistance, food, and follow-up care.
- We've touched thousands of families through virtual care solutions and increased access to mental health services.

Flagler Health Care FOUNDATION NEWS & NOTES

FALL/WINTER 2021

MESSAGE FROM THE BOARD

Dear Friends and Supporters,

The Foundation Board of Trustees is extremely proud to announce the completion of the Forever Flagler Campaign. Together, our community of generous donors raised over \$8 Million in support of the Flagler Health+ Enterprise. The Forever Flagler Campaign provided funding and support for many important initiatives, but I want to highlight a few standouts, including the BRAVE program for youth mental health services, the Plus Bus mobile health clinic, Flagler Hospital's structural heart program, and relief for patients and Flagler Health+ team members throughout the COVID-19 pandemic.

In the last issue of our newsletter, you were reintroduced to Gina Mangus, Executive Director of the Foundation and Vice President of Advancement and Strategy for Flagler Health+. This year we welcomed two new employees to the Foundation team, Sabrina Kelbert,

Administrator of the Foundation, and Brian Wolf, Major Gifts Officer. They join Jessie Brabender, Annual Giving Manager, as we begin a new year of fundraising. You will enjoy learning more about them and the recent highlights at Flagler Health+ in this issue.

Each year, innovation and growth are made possible, thanks to the philanthropic support of our annual donors. As we enter the season of giving, I want to thank you for your continued support of Flagler Health Care Foundation.

Sincerely,

Dr. Gregory Oxford
Foundation Board Chairman

MEET OUR TEAM

SABRINA KELBERT
ADMINISTRATOR

Sabrina Kelbert joined the Foundation team in June. As the Foundation Administrator, she provides operational leadership for the Foundation's philanthropic advancement. A self-described "townie," Sabrina grew up here in St. Augustine and is a Flagler College alumna. She later obtained a master's degree in nonprofit management and brings professional experience in the areas of accounting, database management, prospect research, and donor relations.

BRIAN WOLF
MAJOR GIFTS OFFICER

Brian Wolf joined the Foundation team in October of 2021. As a Major Gifts Officer, he provides identification, cultivation, solicitation and stewardship of high capacity donors for the benefit of the Flagler Health+ Enterprise. Brian is originally from Youngstown, Ohio but has lived in Florida for 17 years and considers himself a Floridian. He brings professional experience from the healthcare recruiting industry and medical university in higher education.

JESSIE BRABENDER
ANNUAL GIVING MANAGER

Jessie Brabender joined the Foundation team in December of 2018. Her fundraising career began at her alma mater, Colorado College, and continued at Flagler College when she relocated to St. Augustine five years ago. Jessie will continue to work on the Foundation's annual fundraising initiatives, including the Health Care Hero program, mail and email solicitations, and annual event planning.

BRAVE EXPANSION:
NASSAU AND CLAY COUNTY

The Nassau County and Clay County School Districts have joined St. Johns and Putnam County in partnering with Care Connect+ to offer BRAVE programming to students in their districts. Clay County will be able to provide access to mental health services for more than 40,000 students in the district’s 42 schools. More than 12,000 Nassau County students in 16 schools will have access to the services.

Be Resilient and Voice Emotions (BRAVE) is a program that encourages area youth to get in touch with their mental health early on and be open to receiving help. It also supports access to behavioral health services via care navigation and technology. As part of Care Connect+, the program works with the whole family to address social determinants of health and to ensure delivery of the right care, at the right time, in the right place.

NEW PARTNERSHIPS:
ANDREWS SPORTS MEDICINE

Flagler Health+ and Andrews Sports Medicine, LLC recently announced that the organizations have entered into an affiliation agreement that provides an exclusive structure to bring internationally-acclaimed Andrews Sports Medicine to Northeast Florida. One of the first initiatives planned as part of the collaboration is the development of an orthopedics-focused surgery center, which will be located on the Flagler Health+ campus at Durbin Park. Future opportunities identified in the agreement include orthopedic research and education, sports medicine clinics, rehabilitation centers, and school-based programs.

In February of 2020, Flagler Health+ launched its Orthopedic Specialists practice, which currently includes locations in Palm Coast, St. Augustine and Ponte Vedra, Florida. The partnership with Andrews will maximize existing talent and resources, while building a broader network of sports medicine providers and services across Northeast Florida.

// We are excited to bring our experience and proven model for delivering the world’s most advanced sports medicine to the residents of Northeast Florida. At Andrews, it is important for us to align with organizations that share our commitment to innovation, quality and patient-centered care and we have found that partner in Flagler Health+.

//
- Dr. James Andrews,
Founder and Orthopedic Surgeon,
Andrews Sports Medicine

HEALTH AND MOBILITY:
BIKE SHARE PROGRAM

Flagler Health+ is excited to sponsor the City of St. Augustine’s new Bolt bike share program. Featuring 13 hubs throughout downtown St. Augustine and over 100 e-bikes, the program officially launched this fall. E-bikes are bicycles equipped with an electric motor that gives riders a power boost. They are available to rent to anyone 18 or older using the Bolt app, and include spacious baskets for errands, a cable lock, and security features like pedal-assisted acceleration, rather than a throttle. The Bolt app charges \$1 to unlock the bike and then 35 cents per minute to ride it. The City and Flagler Health+ are hoping area residents will use the bikes to improve their health and mobility.

EXCELLENCE AWARD:
LABOR AND DELIVERY

For the fourth consecutive year, Healthgrades has chosen Flagler Hospital to receive its Labor and Delivery excellence award, which recognizes the top 5% of all labor and delivery programs. Congratulations, Labor and Delivery team! You are the Power of +.

COMMUNITY SUPPORT: COVID-19 CALL CENTER

Due to an influx in the number of COVID-19 related phone calls at K-12 schools across the county this fall, school officials in St. Johns County decided to open a COVID-19 call center in partnership with Flagler Health+. The call center was operated by Flagler’s Care Connect+ staff, volunteers from the Flagler Hospital Auxiliary, staff from St. Johns County School District and staff from the Sheriff’s office. The call center is designed to notify families when the Department of Health identifies through contact tracing that a student has been exposed to COVID-19. The staff provides families with their student’s exposure date, explains the mandatory 7-day quarantine, and provides the date the student can return to school. The center receives many questions about contact tracing, testing and quarantining and is able to provide families with answers and support faster than before. The call center not only provides support to students’ families, but also alleviates stress for on-site school nurses. There is one on-site nurse assigned to each St. Johns County school, so this initiative allows the nurses to spend less time on the phones and more time focusing on the students in the building.

The COVID-19 call center is open Monday through Friday, every day that school is in session, from 8:00 a.m. to 6:00 p.m. and can be reached at (904) 819-1101 with related questions.

MEANINGFUL GIFTS: HEALTHCARE HEROES

- ◆ Flagler Health Care Foundation's donors continue to offer support and recognition to Flagler Health+ team members for their dedication to the community throughout the COVID-19 pandemic. On October 28 and 29, the Foundation team and board members purchased and delivered “Donuts from Donors” to each hospital unit and satellite location to express their gratitude!
- ◆ Former Flagler Health+ Board of Trustees Chairman, Bill Kopf, and his wife, Elaine, made a gift in honor of the Emergency Department leadership team, Tammy Jenkins, Jessica DuFresne and Michelle Paulo. Their donation included this message to the Health Care Hero honorees: “We would like to take an opportunity to express our deepest admiration and appreciation for the leadership, professionalism and clinical expertise you have demonstrated throughout the COVID-19 pandemic. Your resilience, compassion, and dedication to delivering the best patient care never wavered through what has been one of the most challenging times in history”.
- ◆ The Flagler Health+ Medical Staff made a generous gift of almost \$10,000 to support employees with COVID-19 related hardships. This gift has been designated for the Foundation's Employee Emergency Fund. Flagler Health+ team members can apply for an Emergency Fund grant of up to \$1,000 through Care Connect+.
